

Simple home inventory

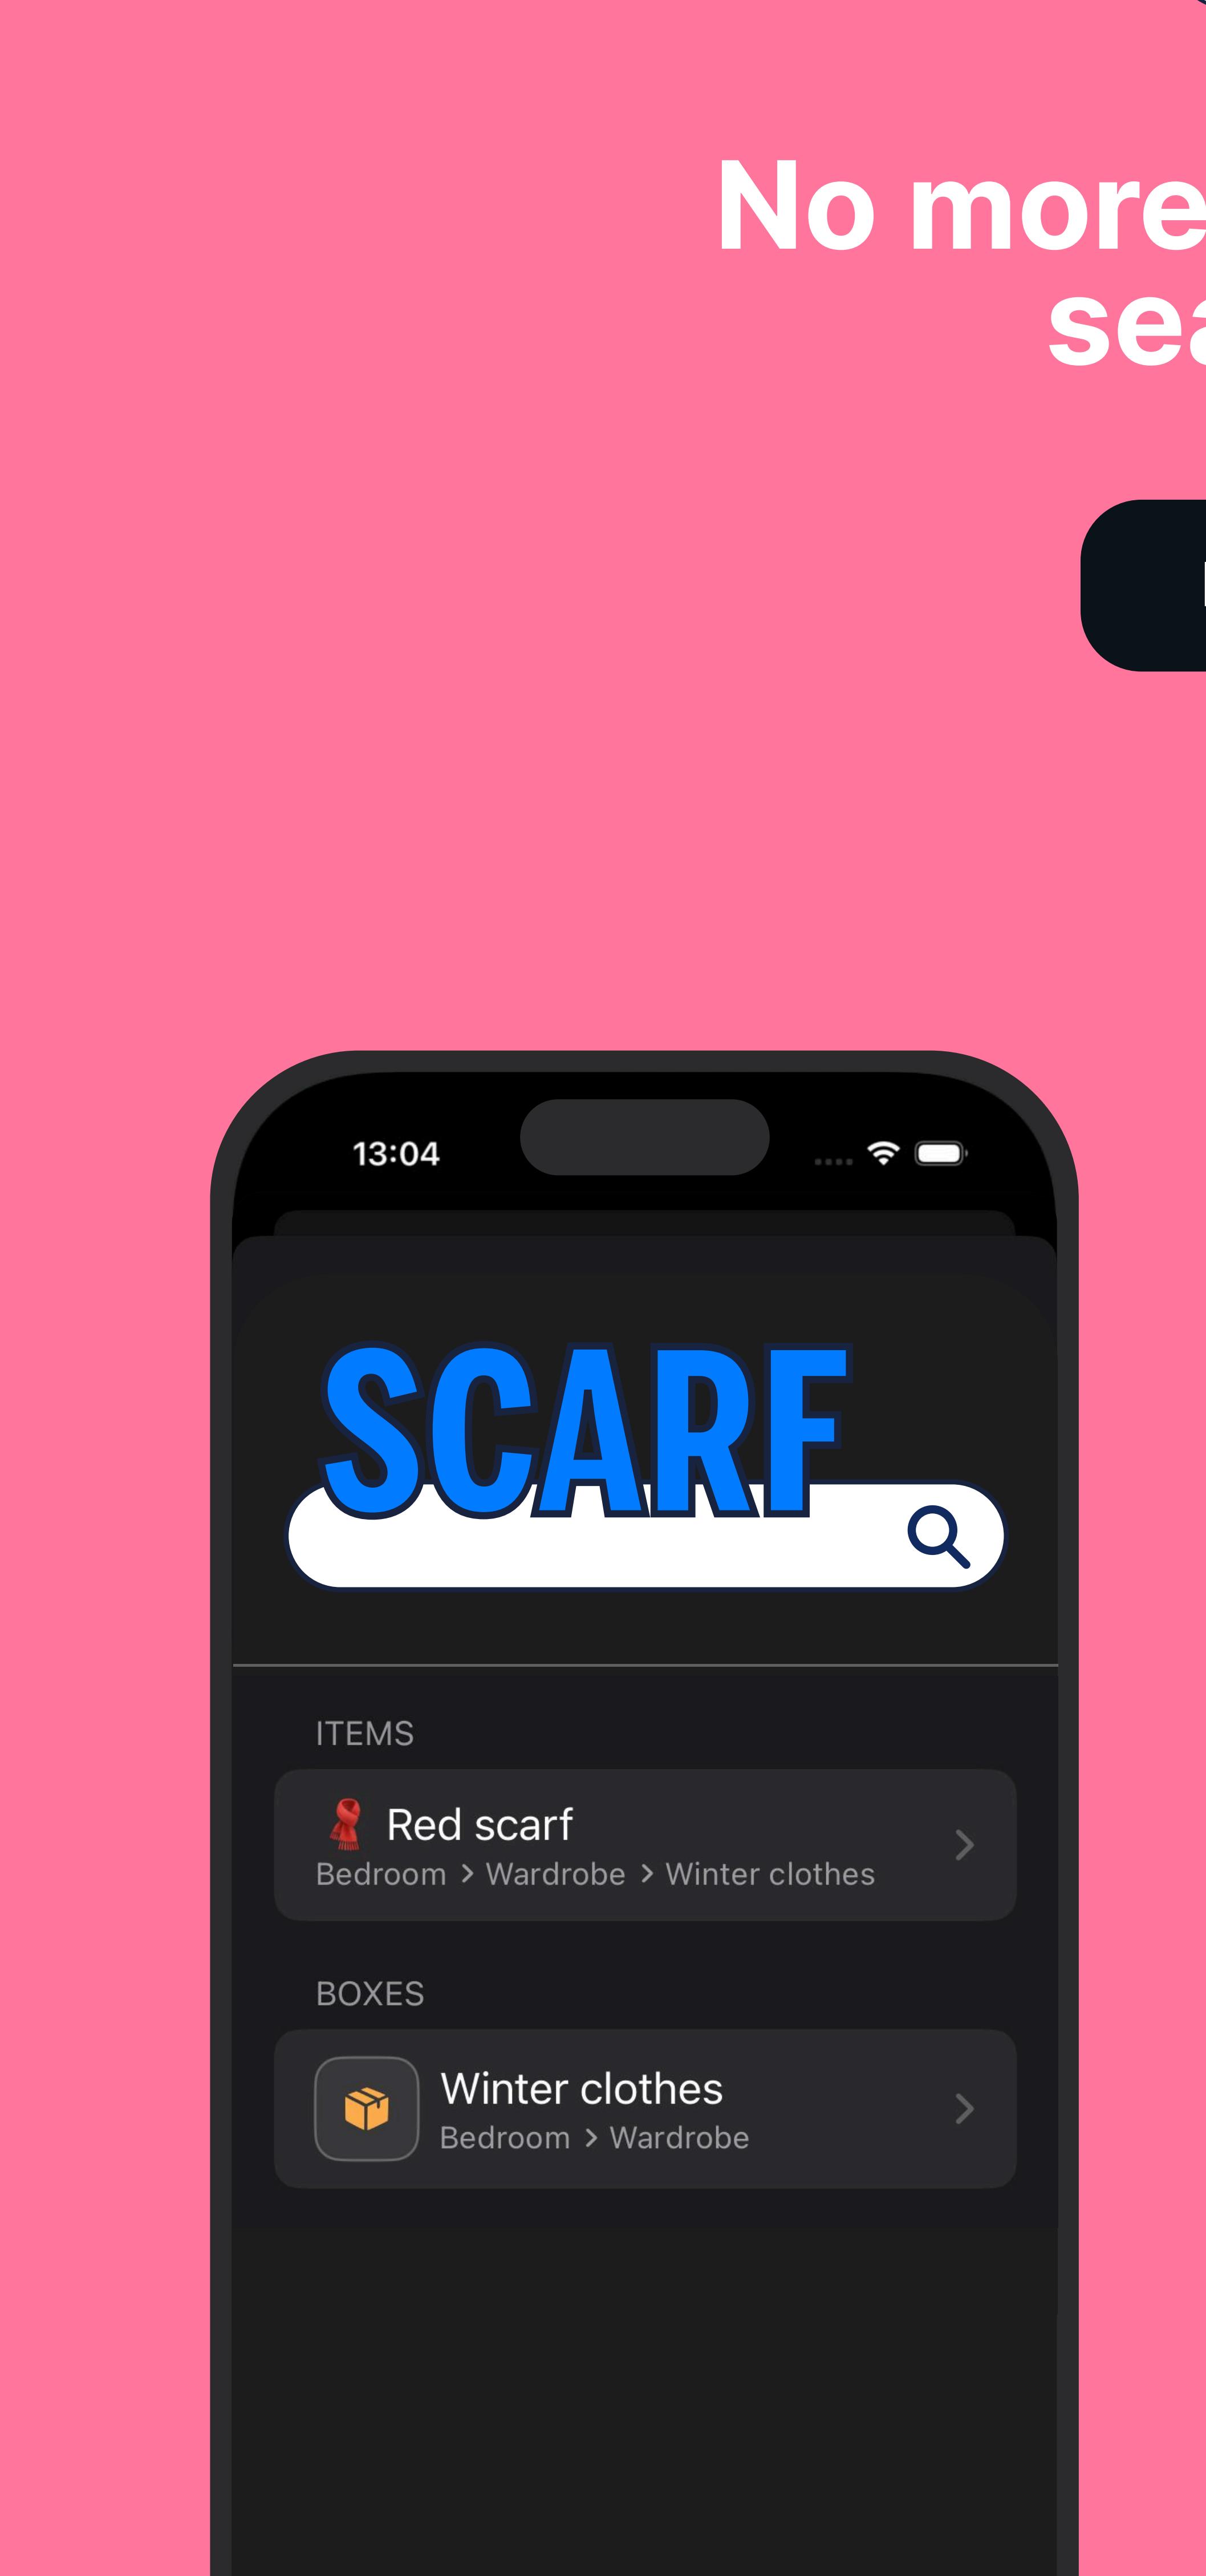

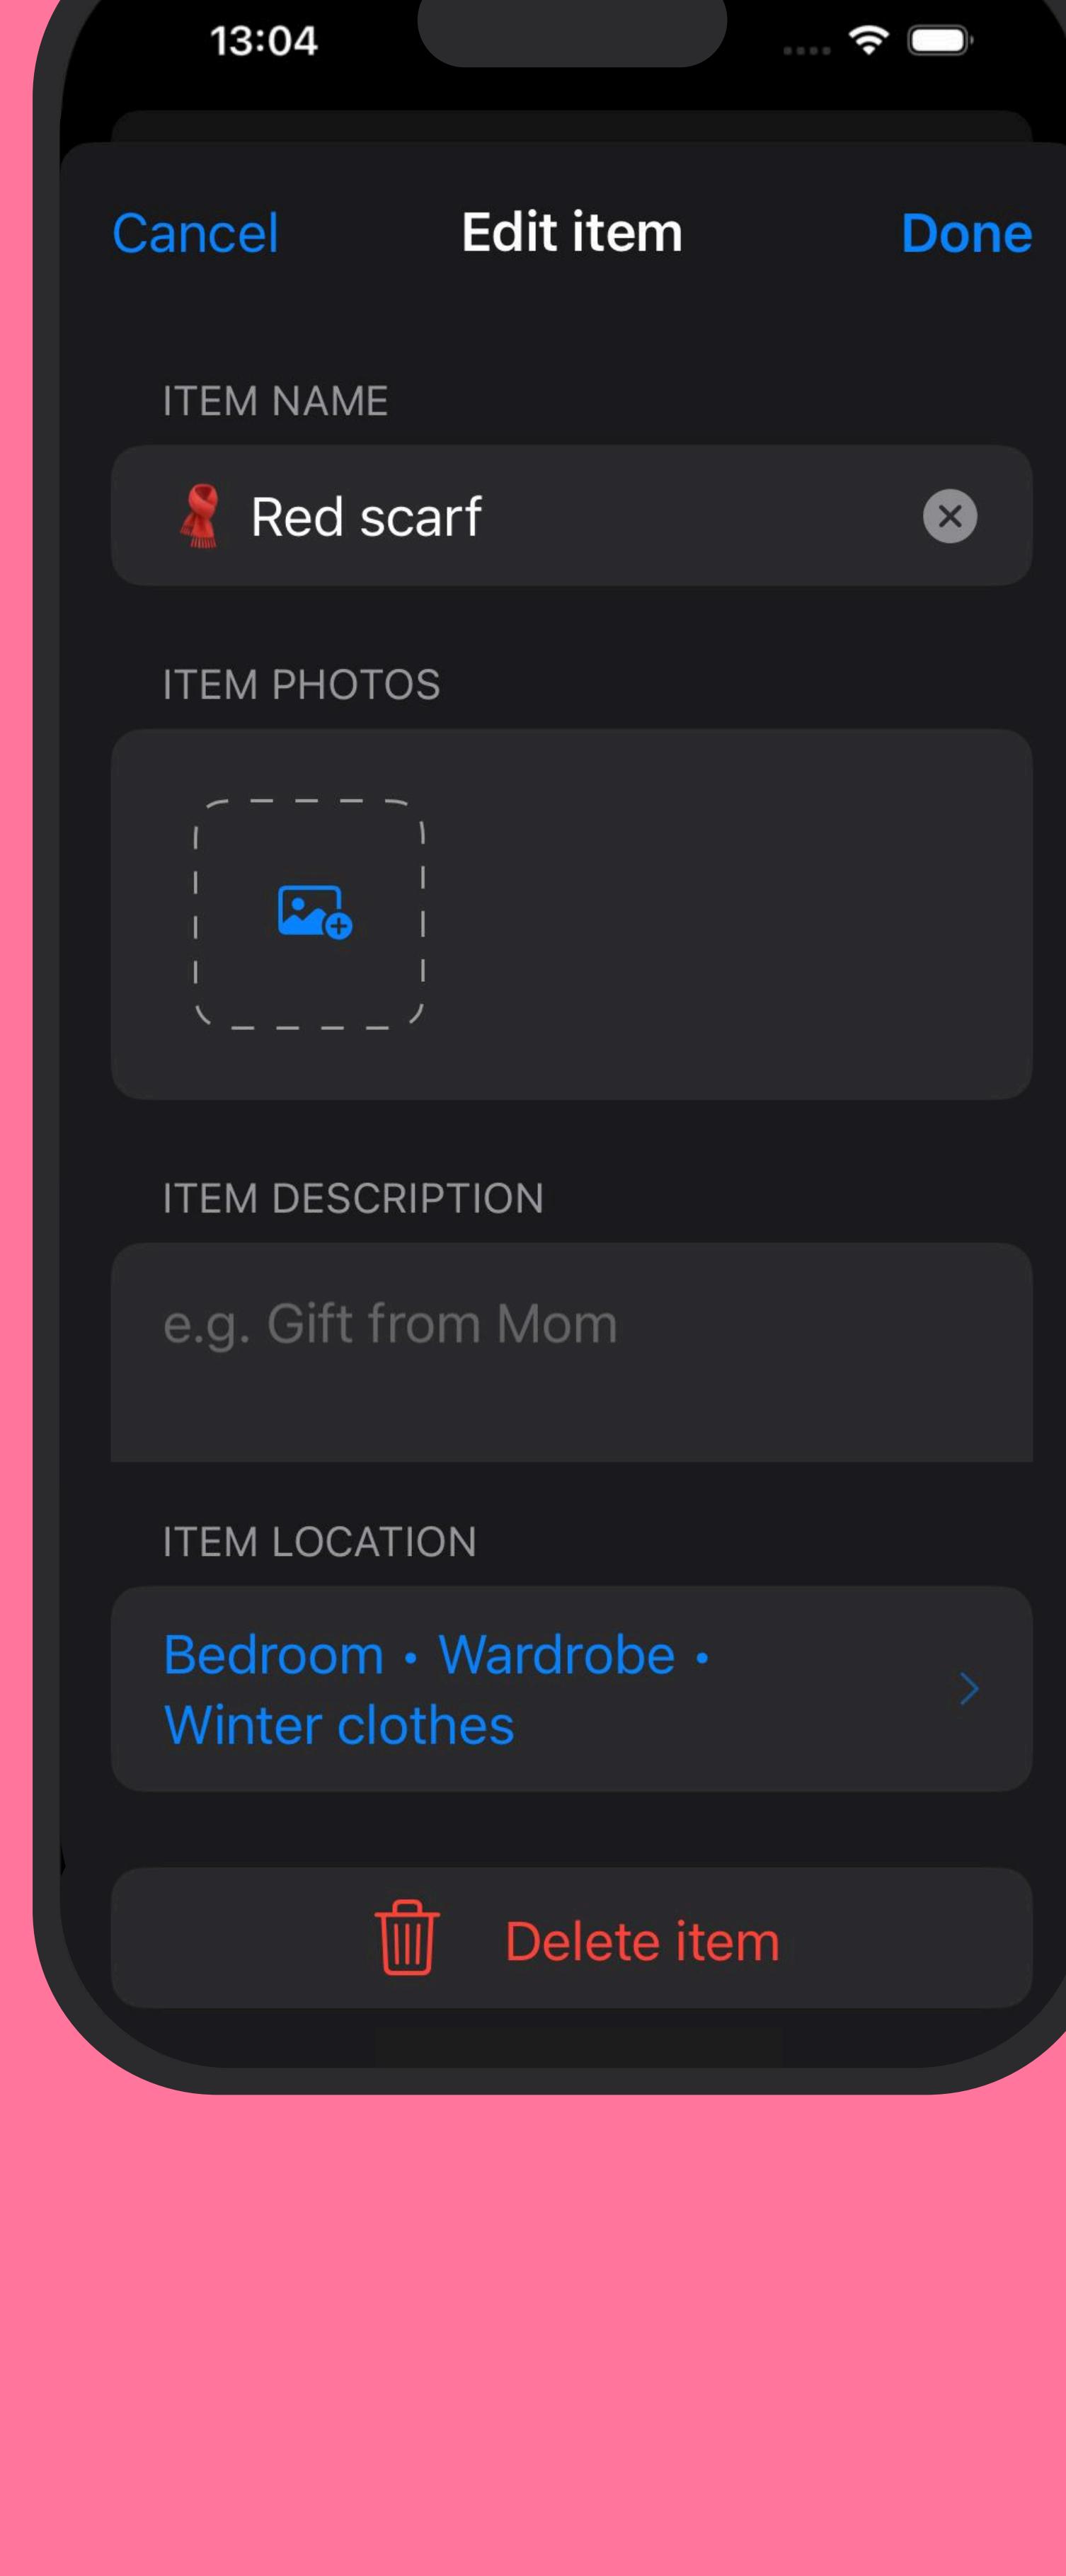

Organized home = peace of mind

Organize your home easily

Set up digital rooms like bedroom or garage, then add shelves, closets, and boxes inside them. Snap in your stuff and always know exactly where it lives – from the attic to the kitchen drawer.

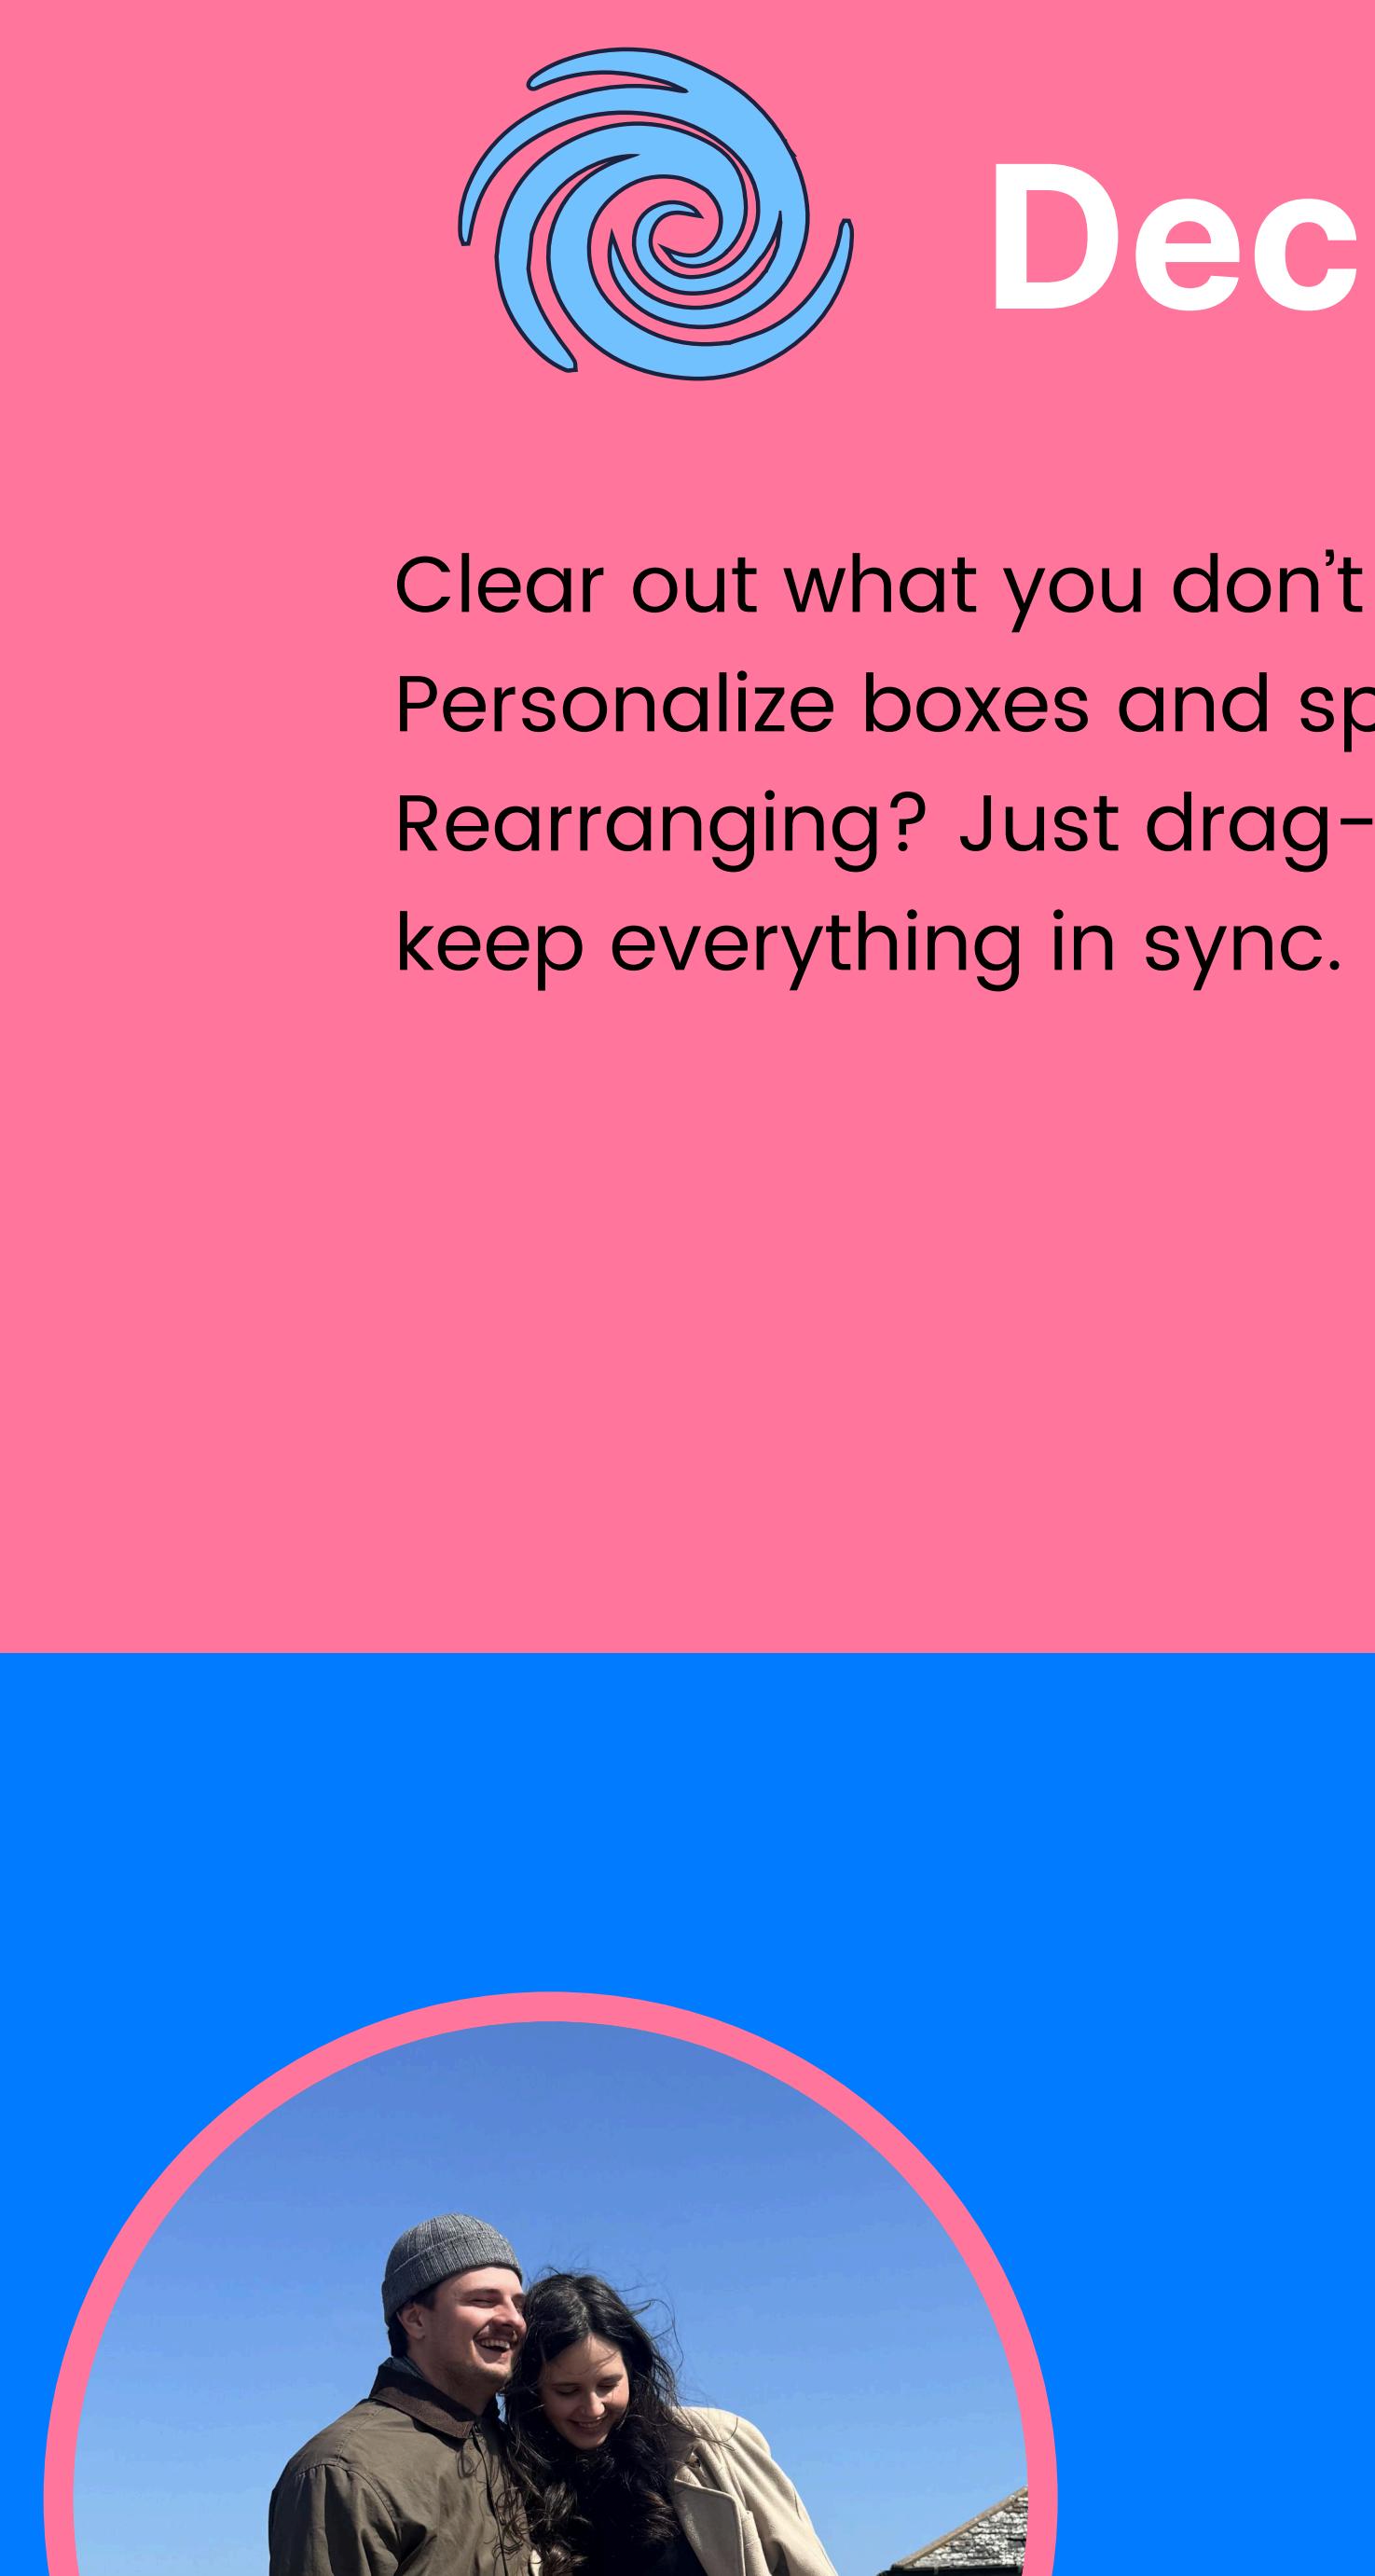

Take photos of boxes & items

No more stress when searching

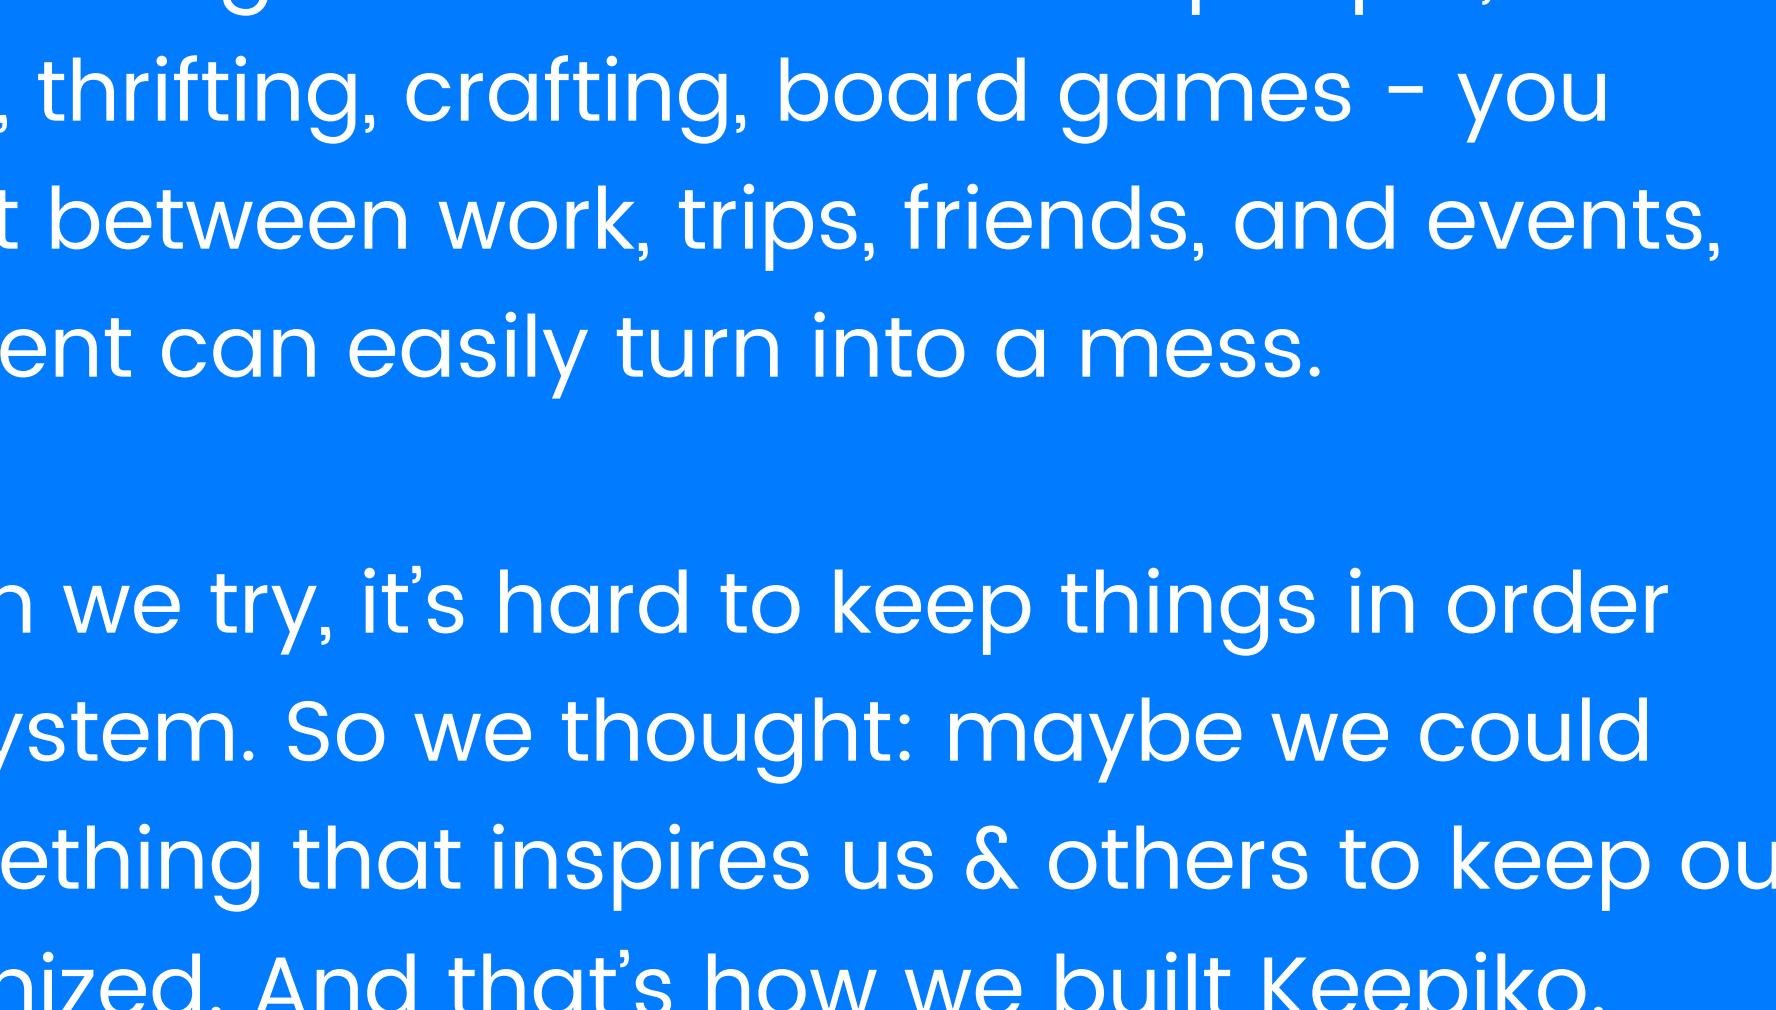

Find stuff

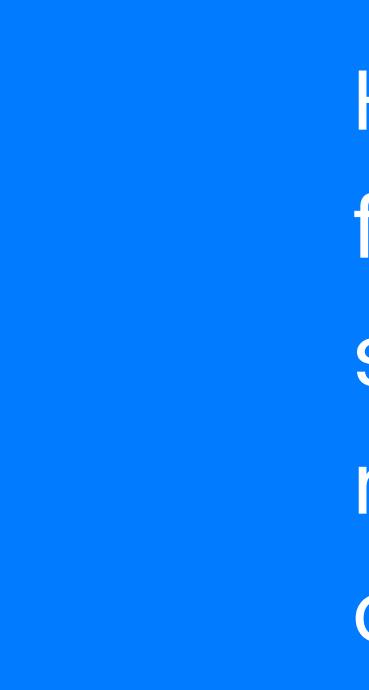

Find any item in seconds

About the devs

Hi, we're Eugene and Anastasia – an indie dev couple from Porto, Portugal. Like most creative people, we love stuff: decor, thrifting, crafting, board games – you name it. But between work, trips, friends, and events, our apartment can easily turn into a mess.

Even though we try, it's hard to keep things in order without a system. So we thought: maybe we could create something that inspires us & others to keep our home organized. And that's how we built Keepiko.

Because life's already complicated enough. Finding your stuff shouldn't be.

Happily decluttered,

Eugene & Anastasia
